EDUCATION

BA Certificate in Computer Science

Birzeit University

2021 - Present

Tawjihi certificate

2020 - 2021

ACADEMIC PROJECTS

Personal Portfolio using React

🔗 <https://woroodassi.netlify.app/>

- This responsive personal portfolio is built with React, TypeScript, and Tailwind CSS. It effectively showcases my skills, projects, and professional experience.

Martyrs Data Management System

🔗 https://github.com/woroodfathiassi/Comp242_dataStructureProject3

- Utilized Java, JavaFX to implement a martyrs data structure using sorted doubly circular linked list, AVL Trees, Queues and Stacks.

Gaza Map

🔗 https://github.com/woroodfathiassi/AlgoProject_3

- Implement the classic Dijkstra's shortest path algorithm and optimize it for maps.
- use Dijkstra's algorithm to find route information between two cities chosen by the user.

Tic-Tac-Toe AI Algorithm

🔗 <https://github.com/woroodfathiassi/AlgoProject4>

- Combined minimax and evaluation functions to create a Tic-Tac-Toe AI that plays optimally.

PROFILE

I am an undergraduate computer science student at Birzeit University, in my fourth year. I am eager to expand my skills and knowledge in new technologies, particularly in front-end development with a focus on React. I have experience building responsive and intuitive web applications with modern technologies such as TypeScript, Tailwind CSS, and HTML. I am passionate about enhancing my learning and integrating into a professional work environment. I am also interested in exploring opportunities that allow me to contribute to innovative projects and collaborate with experienced professionals in the tech industry.

SKILLS

- Technical

React JS Java mySQL PHP

HTML Tailwind CSS Typescript

Javascript

STRENGTHS

- Quick Learner
- Team Work
- Commitment
- Leadership
- Communication
