PROFILE

Recent Computer Science graduate from Birzeit University, with a strong passion for Full Stack Development. Proficient in front-end technologies including React and TypeScript, with a particular focus and growing expertise in back-end development using .NET technologies. Actively enhancing my technical skills through continuous self-learning and practical projects. Seeking an opportunity to apply my knowledge, develop my skills further, and contribute effectively to real-world software development projects.

SKILLS

Frontend: React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Figma (UI Design)

Backend: .NET Core, C#, FastAPI (Python), Java, Python, Selenium (Automation)

Database / Cloud: MS SQL Server, MongoDB, Firebase

Tools: Git, GitHub, Jira, Visual Studio, VS Code, Eclipse, Android Studio

MY PROJECTS

• Ri3aya Support: (Graduation Project)

Ri3aya Support: An Arabic health management app aimed at elderly users in the MENA region, providing AI-powered medical chat, voice navigation, reminders, emergency alerts, and more

• Company Management System

A full-stack web application developed to manage company operations and employee information. The system supports multi-level user roles (Admin, HR, Lead, Employee), allowing dynamic management of departments, employee profiles, salaries, notes, and company content. Features include secure authentication, data filtering and sorting, profile management, and role-based access to system functionalities.

• Personal Portfolio

An interactive web application designed to showcase personal projects, skills, and professional background. The platform offers a user-friendly interface, responsive design, and an organized structure to highlight my experience and technical capabilities.

MY EXPERIENCE

• Univers Telecom | Back-end Developer · Internship

Aug 2025 - Nov 2025

• Gaza Sky Geeks | Co-Instructor . Part-time

Aug 2025 - Oct 2025

Assisted in a training program by managing student affairs, organizing lectures and assignments, and coordinating schedules to ensure smooth learning sessions.

• Gaza Sky Geeks | Back-end Developer · Internship

Dec 2024 - Feb 2025

Experienced in C#, .NET Core, Code-First EF, API development, Dependency Injection, JWT authentication, and role-based access.

• Quizplus | Front-end Developer · Internship

Jul 2024 - Sep 2024

Learned core frontend web development (HTML, CSS, JavaScript, TypeScript) and React to build fast, responsive, and optimized web pages, including API integration for email handling and database connectivity, and deployed projects to Netlify.

EDUCATION

Birzeit University

BA Certificate in Computer Science

2021 - 2025

SOFT SKILLS

- Teamwork and Collaboration
- Leadership
- Problem Solving
- Adaptability
- Communication
- Time Management
- Fast Learner
